

Silver Lining

Jesus Piece

My ray of light
Shine down on me
Show me love
I'm nothing without you

Child of the sun
My king of the world

You're a part of me
My other half
When days get bleak
You're my silver lining

I'll give you anything
If you asked me to
I'd pulldown the moon
Just for you

With life came purpose
Center of my universe
Finally a reason
Something tangible

Unmatched
Nothing else could compare
You're the only one I need

Nothing I won't do for you
You're my foundation
Center of my universe
It's us against the world
Us against the world
