I don't think I know just what to tell you
I guess I though that I could help you turn things around
Well I'll see you in the morning to help you through the day
Only if you still want me around
The only place it's up form here is down

I don't think I know just what to tell you
I guess I though that I could help you turn things around
Well I'll see you in the morning to help you through the day
Only if you still want me around
The only place it's up form here is down

Tell me why do you slip all the time Drop me if you don't like I'll get home it's alright

Tell me why do you slip all the time Drop me if you don't like I'll get home it's alright
