

call me when it's over

Jetta

I call my signal
We're falling faster
When this feeling comes
Don't know how wicked we've become
So we're sailing on
Yeah, we sail towards the red sun

Like a vision, like an echo
It's the reason I will let go

Wish I could stay here
If I could, I would
But it ain't, no
No it ain't, no it ain't so

Call me when it's over
Just call me when it's over

I call my signal
We're falling faster
When we hear it come
Still we don't know how distant we've become
So we're sailing on, yeah
Yeah, we sail towards the red sun

It's like a vision, like an echo
Pain, it's the reason I will let go

Wish I could stay here
If I could, I would
But it ain't, no
No it ain't, no it ain't so

Wish I could stay here
If I could, I would
But it ain't, no
No it ain't, no it ain't so

If I could, you know I
You know I really would
If I could, you know I
You know I really would
If I could, you know I
You know I really would
If I could, you know I
You know I really would

Call me when it's over
