

I Wanna Know

Jetta

Step outside, yeah, step outside yourself
You will find, yeah, you will find it helps
Step outside, yeah, step outside yourself
You will find, yeah, you will find it

Stepping outside
You're waiting on time
Keep your hands tied
You're keeping them dry
Ought to know by now
When you're gonna think?
When's it gonna sink in?
You make your own way
Dig your own grave

Honey
It's only if you tell

I wanna know if you'll be the one
I wanna know if we share the sun
I wanna know if you get me off
I wanna know, I wanna know
I wanna know with a beating heart
I wanna know if your light's on red
Red, red, red

Waking up tired
Always on time
Better get right
Better make up your mind
In your own time now
When you're gonna think?
When's it gonna sink in?
Make your own way
Dig your own grave

Honey
It's only if you tell

I wanna know if you'll be the one
I wanna know if we share the sun
I wanna know if you get me off
I wanna know, I wanna know
I wanna know with a beating heart
I wanna know if your light's on red
Red, red, red
I wanna know

It's in the way you wear your hair
It's in the way you carry yourself
It's in the way you dress so well
It's in the way, yeah, it's in the way, yeah

It's in the way you wear your hair
It's in the way you carry yourself
It's in the way you dress so well
It's in the way, yeah, it's in the way, yeah

I, I like that, like that look
When you look at me that way, yeah
I, I like that, like that look
When you look at me that way, yeah
I, I like that, like that look
When you look at me that way, yeah
I, I like that, like that look
When you look at me that way, yeah, way, yeah
