

# Losing Control

Jetta

I feel the pressure, pleasure of you on me  
And I forget to speak  
With the lightest touch  
Feel like I'm falling, falling from my feet  
You make me weak

I'm losing control, I've got to let go  
You've got to do what you've got to, got to do  
I'm losing control, I've got to let go  
You've got to do what you've got to, got to do

Just go easy on me  
'Cause it ain't easy to love someone like I love you  
Forgive me I'm worried  
That I'm losing and I don't wanna gear myself up

'Cause last time it took me to my knees  
(I feel it) And it hurt like no pain should hurt  
(No pain should hurt) And this time I'm feeling the break  
(I feel it) And for that oh no body is worth  
And for that oh no body is worth

Immobilized, I can feel your eyes  
But I'm afraid to see  
Wanna fall to the floor  
And take you there with me

I'm losing control, I've got to let go  
You've got to do what you've got to, got to do  
I'm losing control, I've got to let go  
You've got to do what you've got to, got to do

Just go easy on me  
'Cause it ain't easy to love someone like I love you  
Forgive me I'm worried  
That I'm losing and I don't wanna get myself hurt

'Cause last time it took me to my knees  
(I feel it) And it hurt like no pain should hurt  
(No pain should hurt) And this time I'm feeling the break  
(I feel it) And for that oh no body is worth  
And for that oh no body is worth

'Cause last time it took me to my knees  
(I feel it) And it hurt like no pain should hurt  
(No pain should hurt) And this time I'm feeling the break  
(I feel it) And for that oh no body is worth  
And for that oh no body is worth

See your love came without warning  
All shots fired back at me yeah  
See this space I gotta keep  
I need release, I need release from it  
I said I need release, I need release from it your space I gotta keep  
See this space I gotta keep  
I need release, I need release from it, from it
