

Forever and a Day (Always)

Jewel

The other day you asked me to
Tell you how much I love you.
Oh but words so often fail,
To describe the depth and scale,
and even though it may sound cliché,
I'll tell you know it my simple way.

My love is as true as the oceans are blue,
and I always feel this way.
Just listen to the beating that keeps repeating.
My heart wants to say
Like Gala and Dali, it's you and me,
Forever and a day.
Forever and a day,
Always

You watch me turn out the light,
Wrap my arms around you, say good night.
Trace our shadows on the wall.
Thank God for the miracle of it all.

The road of life winds
With the passing of time.
I can hear you say,
"How can hearts know
where love will go
beyond today?"

Pick up chorus at 3rd line.
