

Blue

Jez Dior

I got caught up and I was drinking, I was sipping a lot
My old girl called me yesterday, I need it to stop
I said no, she said yes, I said hoe, just fuck off
She said yo, don't talk to me like that, it's going to pop off
I said let me come down, let me do me
Don't give up now, might as well O-D
I'm way too dark
Started with a dream at the top of the charts
Couldn't even get to the bottom of the charts
Word to Mark
Spear in the heart and I hate that shit
That's the whole reason why I take that shit
I'm the whole reason why they make that shit
Girl don't worry, I'll get you some too
Taking down me then I'm taking down you
We pop purp pills with the blue ones
I love this mess ain't some new ones, hey
Put you on game feeling so fire red
And my face so cool but I can't let me stop, baby
Pain overrules
Why you so bright but you stay so blue
Stay so blue

I'm blue da ba dee da ba daa
I'm blue da ba dee da ba daa

We do these things, we make these highs
We get so low, we cry these cries
Not the life that I ever saw for me
But we're wasted baby, take a shot for me
And I'll hold your head when you get that sick
I'll hold your head when you get that
You know what I'm saying?
That dirty sick
Light my cigarette and keep it lit
Because I'm stressed out [?]
And we ain't getting out any time soon

It's evident that we ain't doing too well
But I speak for myself
When I get that sick, spend a week by myself
You would like that, wouldn't you
Lucky that I love you too
We love love and you love love but you just love that blue, that blue

I'm blue da ba dee da ba daa
I'm blue da ba dee da ba daa
