

Forever

Jez Dior

Love forever, it's nothing but a dream I made up inside my head
When we break, I promised I'd curse emotions
But come next morning, I'll go loving again
Looking for forever, darling
Want it forever, darling
Looking for forever, darling
For forever
Looking for forever, darling
Want it forever, darling
I could stand infinity, but only if it's you and me

And I'm like wait, hold up, who you wanna win this with?
I've been in the corner waiting for a chance to run away
I know a place that I never told you 'bout
Seen it while I'm sleeping, why you holding out?
See, I got a lot to do for you
I'm just trying to make a move for you
Move the world if it mean forever
I'm tired of it being just me and my leather
Everything's better in twos
I'm a rookie, but I'm feeling like a veteran dude
I'm in space, but I guess that's my medicines mood
I know you want to join me, I got you some too
I don't know my future, but you're some clue
Mic check one two, mic check one two
Just want to make sure you can hear me from here
Loud and clear
Alright, let's get it, no fear

Love forever, it's nothing but a dream I made up inside my head
When we break, I promised I'd curse emotions
But come next morning, I'll go loving again
Looking for forever, darling
Want it forever, darling
Looking for forever, darling
For forever
Looking for forever, darling
Want it forever, darling
I could stand infinity, but only if it's you and me

Where are you now that I need you?
Come with me wherever that I lead you
Promise, not the circle that your used to
I'm getting all the feelings that we used to
It's back, it's back, it's back you know it's that
Scary ain't it?, but I'm not afraid to act
I'm just afraid to leave, its euphoric to me
It's the everything that found in technicolored dreams like
Forever darling, rose pedal garden
What's in the water?, I'm quickly falling
I'm falling, I'm falling, I'm tripping, I'm choking up
Don't want to be woken up, my mind's 'bout to open up

Love forever, it's nothing but a dream I made up inside my head
When we break, I promised I'd curse emotions
But come next morning, I'll go loving again
Looking for forever, darling

Want it forever, darling
Looking for forever, darling
For forever
Looking for forever, darling
Want it forever, darling
I could stand infinity, but only if it's you and me
