

All Good

Jhené Aiko

Why you let me hurt you so bad?
Why you let me get you so mad?
Something I do not understand
Dealing with a delicate man

Why you? Why you?
Why you so sensitive? (Yeah)
Why you? Why you?
Why you so serious? (Yeah)

Just when it's turning into something good
Just when it's turning out the way that it should
Think you should let it be the way that it could
If you just let it be, then it would be good, all good, all-

Why you let me do you like that?
Hanging on every word I said, uh
Something I do not understand
You should leave the past in the past

Why you? Why you?
Why you so serious? (Yeah)
Why you? Why you?
Why you so sensitive? (Yeah)

Just when it's turning into something good
Just when it's turning out the way that it should
Think you should let it be the way that it could
If you just let it be
Then it would be good, all good, all good

All good, all good, all good
All good, all good, all good
All good, all good, all good
All good, all good, all good
Why you ain't you? (All good, all good, all good) Why?
Why you ain't you? (Why?)
Why you ain't you? (All good, all good, all good) Why?
(I'm just- we might be up here)
Why you ain't you? (Why?)
Why you ain't you? (All good, all good, all good) Why?
Why you ain't you? (Why?)
Why you let me hurt you so bad? (Right)

If you just let it be, then it would be good
(All good, all good, all good)
If you just let it be then it would be good
(All good, all good, all good), all good, all good, all good, all good
All good, all good, all good
