

Mystic Journey

Jhené Aiko

Closer to my destiny
Closer to the connection
Closer to what I'm destined to be
Closer to you
Closer to my destiny
Closer to the connection
Closer, we are connected
Don't you feel your connection to me?

Think it's how you and I take it all the way
Take this thang, further than anyone has seen
Take this love, give it 'til we're in harmony
We've become greater when we are truly
Better as a collective
Better when we're connected

Closer to the connection
Closer to my destiny

Closer to the connection
Closer to what we're destined to be

Take the time, get it right
We could find a way
Take this love, give it 'til there's no suffering
We become better when we could stand as one
Rise above, no more war, some more peace and love

Better as a collective
Better when we're connected
Closer to the connection
Closer to what we're destined to be
Closer to you
Closer to my destiny
Closer to the connection
Closer to what we're destined
