

# Triggered

Jhené Aiko

Go figure  
You were the trigger  
You brought me to an obstructed view  
When you knew the picture was bigger  
Who am I kiddin'?  
Knew from the beginning  
You'd ruin everything, you do it every time  
You are my enemy, you are no friend of mind, muhfucker

You muhfuckin' right  
You muhfuckin' right, I'm bitter  
You muhfuckin' right, I'm triggered  
You muhfuckin' right, I...

Wanna fuck you right now  
I just turned the lights out now  
And you know when the sun go down  
That's when it would all go down  
Been a minute, been a while  
Ain't let nobody hit it since you hit it  
You know you always know what to do wit' it  
But ain't no me and you without you in it  
Damn, I'm 'bout to burn this bitch down  
I think I need to lie down  
'Cause I'm not tryna wild out now  
But right now

Don't know what I'm capable of  
Might fuck around and go crazy on cuz  
Might fuck around, have to pay me in blood  
This ain't the way that you want it  
Might catch a case in this bitch  
Don't let me catch you face-to-face in this bitch  
Tryin' my hardest not to disrespect you  
After what you did, man, what you expected?  
You muhfucker

You muhfuckin' right  
You muhfuckin' right, I'm bitter  
You muhfuckin' right, I'm triggered  
You muhfuckin' right, I...  
Tryna let the time fly (Yeah)  
Tryna let the time go by  
Tryna let the time heal all  
(T-tryna let the time heal all)

Who the hell you think you playin wit'  
I'ma pull up to yo session  
I'ma pull up to yo crib  
I'ma [?]  
Black car with the tint  
Just to make sure you ain't lyin'  
Doin' what you did  
You fuckin' with my mental health  
I ain't feelin' myself  
Say it once, say it twice, I ain't feelin' myself  
If you lyin', nigga, then I'm slidin', nigga

If you love me [?], then provide that, nigga  
Got the baddest bitch 'bout to slip away  
You can feel it in the fuck  
You can see it in my face  
I might pull the trigger, I might kill this nigga  
Talkin' to the lord while I'm sippin on the liquor  
Playin' with the poison, [?] mixture  
Doin' crazy shit cuz I can feel the wraith shoot  
All my bitches know that and all my bitches feel this  
Don't forget, I'm the top of every nigga's wishlist, nigga (Icy)

I'm triggered, when I see your face  
Triggered, when I hear your name  
Triggered, I am not okay  
You need to stay out my way  
I'm triggered, when I see your face  
Triggered, when I hear your name  
Triggered, I am not okay (Yeah)  
You need to stay out of my way  
You need to stay out of my way (Yeah)  
You need to stay out of my way, yeah  
Oh oh-oh-oh, ayy, yeah
