

# Wasted Love Freestyle 2018

Jhené Aiko

Put that on my life, everything I love  
Never crossed no line  
It was all because I dedicate my life  
To lovin' you right  
Love comes before pride, I loved you before I-I-I-I  
'Fore I even knew why

How did we get away from love?  
How did love get away from us?  
Not my time, I should wait for love  
Waste of time, what a waste of love

You became my life, put that on my life  
Took me out my mind, took my peace of mind  
I never realized you were my light  
Without you by my side, that just don't feel right

Only been a week I think I'm weak can't even  
I can't even eat, can't sleep, when we ain't speakin'  
What you telling me boy that's a real weak reason  
You cut me so deep, it hurts for me to breathe in

How did we get away from love?  
How did love get away from us?  
Not our time, we should wait for love  
Waste of time, what a waste of love  
You're my wasted love

You're confused so you  
Do not know the truth  
Listen to your heart, wish you knew your heart  
Wish you knew what it sound like  
Wish you knew what it felt like  
Wish you knew I was down for life  
Wish you really was 'bout that life  
Wish you knew I was the one  
Wish you knew what you wanted  
You should do what you wanna  
You can do what you want 'cause  
I'm gon' set you free, yeah  
Visions of you leaving me, yeah  
Next thing I know you're leaving me  
No tellin' where you were leading me, leading me  
You're leaving me

How did we get away from love?  
How did love get away from us?  
Not my time, I should wait for love  
Waste of time, what a waste of love  
You're my wasted love, wasted love
