Jibbs

King Kong, king, king, king, king Kong, king  
King Kong, king, king, king, king Kong  
You could hear me 'fore you see me I got king Kong in the trunk  
King Kong, king, king, king, king Kong, King  
King Kong, King, King, King, King Kong  
If you hear before you see me  
I got King, I got King Kong

A yo this beat is bananas  
Gave king Kong a treat then put him in the trunk of the McClaren  
So when the doors lift up they fall off, fall off  
Take a look at my ride, you see the doors fall off  
'Cause the wheels look flat, trunk so heavy in the back  
Got the speakers in the front, they be sitting on my lap  
Got the bumper to the ground, Cause the trunk weighing it down  
They think it's a low rider when they come from outta town  
That's a King Kong, in the trunk, that's the gorillas behind me  
When I'm rolling through your hood anybody can find me  
You can hear me from the next block  
When I'm on the next block, when I'm headed to the next block  
Got you jumping to the next block

King Kong, king, king, king, king Kong, king  
King Kong, king, king, king, king Kong  
You could hear me 'fore you see me I got king Kong in the trunk  
King Kong, king, king, king, king Kong, King  
King Kong, King, King, King, King Kong  
If you hear before you see me  
I got King, I got King Kong

Lil' Momma got you stopping and dropping  
When the bass start bumping  
So I told her she wasn't talking about nothing, and she just fronting  
You can hear me from a block  
And you already know what's up  
With the women cause they feeling me how it rumble in the trunk

I got plenty speakers up in my trunk and I turned it up  
And all the ladies loving how it be bumping  
They can hear me coming, you can hear before you see me  
I got beats up in the trunk  
All the ladies want to chase me when they hear my system bump  
I'm 'bout to head out to that Lou  
And holla at you 'bout some fetti, hit my celly soon as you ready,  
Split this cheese like a deli.  
They thought I was a lunatic when I pulled up to the telly  
I had that candy coated Chevy, showing it's grill like it's Nelly  
And the ladies love me why is that,  
They love the way I be getting my lean on  
Flip the diamond, and get a multi colored diamond bling on  
That King Kong, yea I bet ya this gon' be the theme song  
Cause that King Kong will have your ears ringing like a ring tone

King Kong, king, king, king, king Kong, king  
King Kong, king, king, king, king Kong  
You could hear me 'fore you see me I got king Kong in the trunk  
King Kong, king, king, king, king Kong, King

King Kong, King, King, King, King Kong  
If you hear before you see me  
I got King, I got King Kong

Them boys is knockin', I got it on lock  
Cause I make hits like I'm boxing  
Start it up and it sound like a rocket  
Then a hater, hating inside, like don't pop with this  
See the beats is beating, ya hear me before you see me  
Before you even can reach me, it'll have ya thinking  
That this boy is a beast in the streets  
While ya blinking, have ya bopper looking like you been drinking  
I'll eat ya, it's like I have speakers in my speakers  
So when they speaking on it all they gon' speak of is a beaster boy  
So don't make me just treat ya to a feast

A beast'll just beat off both of your ear drums

King Kong, king, king, king, king Kong, king  
King Kong, king, king, king, king Kong  
You could hear me 'fore you see me I got king Kong in the trunk  
King Kong, king, king, king, king Kong, King  
King Kong, King, King, King, King Kong  
If you hear before you see me  
I got King, I got King Kong
