

LIGHTS OUT

JID

When the lights out
Still can see me shining, I'm a lighthouse
Lights out, are you ready?
Are you ready, are you ready?

When it's dark out
I'll show you the way 'cause I'm a lighthouse
Lights out, are you ready?
Are you ready, are you ready?

Uh, I'm as ready as I'll ever be
Doing things that better me
How you supposed to make it out the block if you don't never leave?
How you supposed to make it out the job if you don't never see big?
Picture all those wolves out here made of sheepskin
Picture all my enemies tryna be friends
Picture me tryna lead and follow these trends
Pen in hand, but the words from my soul
First rap bitch you know that went back and forth with Cole
They abusing trust, almost through with love
Take my cue to go, I'm moving up
Wasn't due to luck, this was really owed
I know you from elementary, really, no, we don't
Lights was out in my mama house, but we used the stove
French tips to my toes, down to the cuticle
Life's hard, but it's beautiful
I've been letting go of people I done made excuses for
I'm just human though, I think I need more light than usual

When the lights out
Still can see me shining, I'm a lighthouse
Lights out, are you ready?
Are you ready, are you ready?

When it's dark out
I'll show you the way 'cause I'm a lighthouse
Lights out, are you ready?
Are you ready, are you ready?

Lights out
Lights out

I got my top way back and my beat down low
We put so much in the grind 'cause we was on the ground floor
Got a foot inside the game, so now, we kicking down the door
Niggas be clowns, you can't come around no more
On this railroad smoking, but we ain't underground no more
Been tryna push the sound, you know, surround the whole globe
The dough was lost and found, you know, I figured out a way to dig it out
I've seen the hate and I should slap the taste from out you niggas' mouths

I've seen the light shine brighter than a pot of gold
But you gotta feel the rain to see the rainbows
Guided by guardian angels
Goblins, goons, oh God, we in danger
Stars and the moon, I'm harvesting painful thoughts in my brain
I'm looking for a change, I need it right now

I dropped my anchor near the dock and found a lighthouse
I know it's dark, but you can see me

When the lights out
Still can see me shining, I'm a lighthouse
Lights out, are you ready?
Are you ready, are you ready?

When it's dark out
I'll show you the way 'cause I'm a lighthouse
Lights out, are you ready?
Are you ready, are you ready?

Lights out
Lights out
Lights out
