

# What We On

JID

Baby, what you be on? I see you turnin' me on  
You know it 'cause what we on, what we on  
I'm so happy to see ya, I know you wanna be on  
'Cause we on, yeah, 'cause we on  
'Cause we on, we treat you like a peon  
Get me gone, 'cause he on and we on, yeah, yeah  
Buddy had turned the heat on  
Shawty got some, I can't meet 'em  
The heat on, heat on, 'cause we on, yeah

Touch it, let me fuck in it  
Walk it, cross it  
Still geekin' about your love from the projects  
Shawty got me weak  
Saw shawty in the club last night and it took me off my feet  
Took a dose of it, took a dose of it and it got me weak  
Took a dose of it, took a dose of it, you know me

Hittin' my peach, she hittin' my line  
Thought that I was tied up with a freak  
That's a lie, I was probably high, shawty  
'Cause the lab got me on a leash  
Tried to call back, but you didn't respond to me  
Let me know some', let me know some while I'm free

Baby, what you be on? I see you turnin' me on  
You know it 'cause what we on, what we on  
I'm so happy to see ya, I know you wanna be on  
'Cause we on, yeah, 'cause we on  
'Cause we on, we treat you like a peon  
Get me gone, 'cause he on and we on, yeah, yeah  
Buddy had turned the heat on  
Shawty got some, I can't meet 'em  
The heat on, heat on, 'cause we on, yeah

I just wanna see the lights  
I ain't worried about a holiday  
I just wanna make it right  
Knee deep down in that paint  
Call a holiday to the saints  
Sippin' a whole pint of that drank  
Smokin' a whole ounce of that dank  
How you get over there? They changed  
She pulled out a i8  
Rode off to the bank  
Rolled off, let her—

Look, rolled out another state  
I done made a hundred thousand in a day  
That's a half a milli' in a week  
Kind of ho to speak to me from a plane  
We are not the same  
She be tryna run me the brains, number  
Exchange fluids, I ain't payin' attention to it  
I'm intuitive and it's a crude, and booty stank  
Give me one of them, huh  
It done make it hard for a nigga to leave

I know it ain't love, that's just what I need  
I'm sippin' the cup, I rinse and repeat  
I sin and repent, I sin and repeat  
Defender with a trick up my sleeve  
A spender on a bitch that I please  
It's winter, so the wrist, I'ma freeze, a blizzard  
Shawty Senegalese, a sister  
And she want me to be her mister  
But I don't wanna tease or tempt her  
'Cause you know that I read the scripture  
Like it's Adam and Eve, I probably done seen the picture  
Two hundred degrees, movin' at light speed and sippin' elixir  
I'm comin' to get her  
Swerve and serve, and you work  
I'm too turnt, with one stone, I kill two birds  
My feet in the sand, they planted, buildin' a new Earth with new curses  
But steady on the surface with true purpose now  
I can take you deeper, we just skimmin' the surface  
The things you like to think, but never speak it in person loud  
You can follow me and I can lead on  
I know you hate to be home alone  
With a t-shirt and no panties on, yeah (Yeah)

Baby, what you be on? I see you turnin' me on  
You know it 'cause what we on, what we on  
I'm so happy to see ya, I know you wanna be on  
'Cause we on, yeah, 'cause we on  
'Cause we on, we treat you like a peon  
Get me gone, 'cause he on and we on, yeah, yeah  
Buddy had turned the heat on  
Shawty got some, I can't meet 'em  
The heat on, heat on, 'cause we on, yeah

The cup's more than anything, ooh  
The cup's more than anything, ooh  
Help me, come on, help me, come on  
Help me, come on, help me, come on  
Help me, come on, help me, come on
