What the fuck we got degrees for?
If we ain't flying overseas more
If we ain't fucking on the seashore
If we ain't puffing on the breeze more
Getting cheese more

Champagnin' with the team more
Congratulations nigga we won!
I been feeling stuck like a Uber with the child lock on the side door
If we ain't live to die for it
Going eye to eye to eye for it

Look let me tell you
Let me tell you something you don't know
You see, some women, they have a short range in their womb
Some men too, they also have a short range
Because when their sperm shoots out like this
Ooom
It doesn't go far, it goes very slow, as a tortoise
So as you are sexing the woman
MMmbukatu MMbukatu
The womb opens like this
Whoosh
Are you getting me? Very good
Now, if the womb close the sperm remain outside
You can never impregnate your wife
We are now speaking on a typical, you know practical, biological something
You know? That's what I'm teaching you
Are you getting me?
A woman will move for another man and have a child for that man
Like they will jump from one man to another just have to have a child for th
at man
Eh?
Who is calling me?
Oh, my wife
Ma ay!
I'm coming! I'm coming! I'm on the way; just give me some time...
