

A Bedtime Story

Jigsaw

I feel you move beside me
But I can hardly hear you breathe
And only when I look I know you're there

I try and stop myself from drowning
Drowning in a sea of dreams
Waiting 'til you wake again to love me

Night's a round of love and sleeping
'Til once more the dawn comes creeping
'Round my door
Taking my love away
I wish the night would last forever
Never come the day
I wish it would stay

Now I feel you moving with me
As only you know how to do
You are part of me, I'm part of you

I feel you move beside me
But I can hardly hear you breathe
And only when I look I know you're there

Night's a round of love and sleeping
'Til once more the dawn comes creeping
Around my door
Taking my love away
Wish the night would last forever
Never come the day
I wish it would stay

I try and stop myself from drowning
Drowning in a sea of dreams
Waiting 'til you wake again to love me

Night's a round of love and sleeping
'Til once more the dawn comes creeping
Around my door
Taking my love away
Wish the night would last forever
Never come the day
I wish it would stay
