

## Mention My Name

Jigsaw

Mention my name, say that I can remember yet  
Ask her if she can say, that she can't forget  
The love that we shared  
And the dreams that we knew  
I want to make them come true

Mention my name in a cool and a casual way  
Make out as if, we'd not met, like we had today  
Then try, if you can, see if she, feels the same  
When you have mentioned my name

Won't you say I really loved her and I love her still  
Tell her that I'm thinking of her and I always will  
Try and talk about the old days  
How things aren't the same  
Turn the conversation round and mention my name
