

My Summer Song

Jigsaw

Anything I can do, girl
Anything I can say
Look at the sky, it's blue, girl
How can you feel this way?

Don't wanna see you sad, girl
Try on, it won't be long
Soon, you'll be feeling glad, girl
I'll sing you my summer song

Sun, come on down
And warm up the heart of the girl in my garden
Sittin' with me
Hearing my song

Sun, come on down
And dry up the tears of the girl in my garden
Sittin' with me
Poor little thing
Listening to my summer song

Don't wanna see you sad, girl
Try on, it won't be long
Soon, you'll be feeling glad, girl
I'll sing you my summer song

Sun, come on down
And warm up the heart of the girl in my garden
Sittin' with me
Hearing my song

Sun, come on down
And dry up the tears of the girl in my garden
Sittin' with me
Poor little thing
Listening to my summer song

Anything I can do
Anything at all
I said, look at the sky, it's blue
Oh girl, please
