

Sway

Jigsaw

Saw the writing, it was on the wall
Saw that you would never give at all

'Cause you, you won't give in
You gotta win, even the times you know you're wrong
So please don't fight, just be like
Trees on a windy day

Sway
Give a little more than you take (See the light)

Sway
each other love you can make (No need to fight)

A heart to heart is better to face to face
In its place, just

Sway
This is not a game we should play
Two sides to every story
Please do one thing for me and sway

Though it seems the whole world's on the take
You gotta give or very soon you'll break

But you, don't have to stray, just gotta sway
There's times when you think you're right, you're wrong
So please don't fight, just be like
Trees on a windy day

Sway
Give a little more than you take (See the light)

Sway
each other love you can make (No need to fight)

Because a heart to heart is better to face to face

Just sway
This is not a game we should play
Two sides to every story
Please do one thing for me and sway

Sway
Give a little more than you take (See the light)

Sway
each other love you can make (No need to fight)

Sway
Give a little more than you take (See the light)

Sway
each other love you can make (No need to fight)
