

## Old Flame

Jill Barber

Old flame, burnt out long ago  
I hope you know what you meant to me  
There was a time when you were burning bright  
I stood in your light  
But it wasn't meant to be

Old flame, I wonder have you changed?  
Are you, just the same?  
Old flame, in the back of my mind  
I still let it shine from time to time

Old flame, I wonder have you changed?  
Are you just the same?  
Old flame burnt out long ago  
I hope you know, what you meant to me  
There was a time when you were burning bright  
And I stood in your light  
But it wasn't meant to be

No it wasn't meant to be
