

## I Should've Left Sooner

Jill Johnson

What have we done to each other  
We didn't start out like this  
So from one heart to another  
Is there something that I've missed

You were so desperately patient  
All you could do was drag it out  
Now all I see is time we wasted  
And I know without a doubt  
I should've left sooner

Cause you would've stayed forever  
You and your stormy weather  
I guess I could've spared us both the pain  
I should've left sooner

You made it look like a surrender  
So I am left with all the blame  
Keep your pride and be the winner  
But it ended just the same  
I should've left sooner

Cause you would've stayed forever  
You and your stormy weather  
I guess I could've spared us both the pain  
I should've left sooner

All your rain and thunder  
Almost took me under  
I may have let go just in time

Cause you would've stayed forever  
You and your stormy weather  
I guess I could've spared us both the pain  
I wish I could've spared us both the pain  
I should've left sooner  
I should've left sooner
