Can't believe your touching me like the way your touching meeee
eee...

I can feel pass your skin right to your energy

feeling like the moon is under the sheets with a smile...

Shining all bright and baby I just don't know how...

So this is making love...

I can't believe it....Ohhh oh oh oh oh oh

so this is making love...

I just couldn't see it

Can't believe the way your lips, your lips are kissing mine...

I can feel you heart beating, beating at the same time

This is crazy magic wooper fantastic chemistry...

floating so high I swear that we were soaring...
