

Ode to Nikki

Ode to Nikki

She is not trapped in a perpetual loop
They are not doing what they are used to
He is not sitting on the same concrete wishing
She is a living, alive Celestine prophecy
He can actually taste his own vibrancy
She is swaying to her symphony
Rocking, rocking her hammock
Feeling the breeze, self-motivating
Self-satisfactioning
Wonder filled curiosity, exciting
Cages crumble, much pride
Much humble, much fumbled
No more dumbing down, for what? For who?
Exquisite views, intentional luxury
Mind bending the spoon
Complex simplicity, simpatico
Beautiful beings, touched by the Sun
Redefining shining, vibrating sonically

Easy, easy, easy, easy
Easy, easy, easy, easy

He is not trapped in a perpetual loop
The write sonnets, ode to her mentality
They remember themselves, the costumes are hilarious
We are lifting, she is not cruel
He is not entertaining the poisoning
We are laughing at the futility
We are harboring none, none of their shameful tryings
We are lava-formed foundation
We have learned love is kind, and its sword is cauterizing
We're not merely memorizing
Strategically, self-defining
Ain't not near coincidence nowhere
We have opened our eyes, and
No more X or Z guises
We are together together, birds and feather
Risen and rising, thriving, finding, finding
The most beauty, the most hypnotizing
The most mesmerizing, energy

Easy, easy, easy, easy
Easy, easy, easy, easy
Easy, easy, easy, easy
Easy, easy, easy
Energy

Man

We are trapped in no perpetual loop
Better recognize, got them squares out of our circle
When referred to Metatron's cube, lemme tell you why
It's all mathematics and Black on both sides
Ha! Backbone made of titanium
The current
Ever spinning tide is afraid of us and I ain't surprised

Our system is solar, the orbit is gettin' slower
The sun is colder, we moonwalking in blue suede shoes
Replace the pennies with silver dollars inside our loafers
Sliding in stealth with knowledge of self
First-class astro flights that never never land
Done ego-trippin' but still shapeshifting
Applying sacred geometry
Off with the head of you reptilians

That is the vision and the plan

Easy, easy, easy, easy
Easy, easy, easy, easy
Easy, easy, easy, easy, easy
