

Barren Egg

Jill Sobule

Another barren egg
Another month gone by
Just more time to do as I please
No one's watching over me

Don't have to make my bed
Can lay in it instead
No one there to bother me

'Cause I'm free
It's just me
I'm free
Nobody but me

Another friend got caught
Another friend, knocked out
Another friend with nothing in common with me

Another night with you
Spending time with you
Still alone 'cause you're the freest man I've ever known

I'm free
It's just me
I'm free
Nobody but me

I'm free, save me
I'm free as the snow as it melts away
Free as the wind on a real calm day
Free as the moth on my windowpane
Like you, like me

Another barren egg
Another year gone by
Just more time to do as I please
No one's tugging at my sleeve

I can be as rude as I please
No one's gonna fire me
Floating in this endless sea

I'm free
It's just me
I'm free
Nobody but me

I'm free
Help me
I'm free

Another barren egg
