

It's a Beautiful Day and I Love You

Jillette Johnson

It's a beautiful day and I love you I want you to know
I was just calling to tell you so
I was just walking around in the sun
Thinking about you, yes you are the one for me baby

Everything's better now that you're around
Whatever weather may fall on the ground
Every winter will turn into spring
I was just calling to tell you about everything you bring

I just want you to be happy and love me till we die
I just want you to look at me and laugh until you cry

From the moment I met you I knew
There wasn't anything I had to do
There wasn't anyone I had to be
You weren't going to love anybody else but me

I just want you to be happy and love me till we die
I just want you to look at me and laugh until you cry
Everything's better with you by my side
By my side
Everything's alright

It's a beautiful day and I love you I want you to know
I was just calling to tell you so
I was just walking around in the sun
Thinking about you, yes you are the one for me baby
