

# Friends

Jillian Jacqueline

Is it just me or does it party feel like misery  
Misery loving company, fun never looked so lonely  
I'm tired of making all of these apologies  
Like I got somebody to please when nobody really knows me

Like you  
You take up all the space  
That I got in my brain  
And I'm not even ashamed

Who needs friends when we got each other  
You're more than just a lover  
And I don't need another friend  
Call me codependent  
'Cause I'd rather be spending  
All my time with you, ooh, ooh  
All my time with you

Is it so wrong that all I want is everything you've got  
Nobody else has a shot at fixing all my problems  
And when it comes to love and what is healthy  
Some people might disagree like you and me eventually  
We're gonna hit rock bottom

But hey  
Even when we're wasting time  
Maybe blowing our pride  
I still feel satisfied

Who needs friends when we got each other  
You're more than just a lover  
And I don't need another friend  
Call me codependent  
'Cause I'd rather be spending  
All my time with you, ooh, ooh  
All my time with you

Embedded in every [?]  
I'm happy [?] all alone  
Oh, oh, all alone

Who needs friends when we got each other  
You're more than just a lover  
And I don't need another friend  
Call me codependent  
'Cause I'd rather be spending  
All my time with you, ooh, ooh  
All my time with you
