

Fa La La

Jim Brickman

Fa la la la la la it's Christmas
Fa la la la la the church bells chime
Fa la la la la we are celebrating
Love it's Christmas time

Snow is falling on our nose underneath the mistletoe
Twinkling lights are green and gold and red looking so pretty
All around the world boys and girl are caroling
You can almost hear the angels when they sing

Fa la la la la la it's Christmas
Fa la la la la the church bells chime
Fa la la la la we are celebrating
Love it's Christmas
And the world looks beautiful and bright
It's like everything's alright
As we deck the halls with love and joy this season

Snow is falling on our nose underneath the mistletoe
Twinkling light are green and gold and red looking so pretty
All around the world boys and girl are caroling
You can almost hear the angels when they sing

Fa la la la la la it's Christmas
Fa la la la la the church bells chime
Fa la la la la we are celebrating
Love it's Christmas
And the world looks beautiful and bright
It's like everything's alright
As we deck the halls with love and joy this season

Fa la la la la la it's Christmas
Fa la la la la the church bells chime
Fa la la la la we are celebrating
Love it's Christmas time
