We was together like
The whole thing that we was about
Everthing that we was about started to kind of change
I used to listen to it like
We was together

Mine for life, mine for life, mine for life, mine for life Mine for life, mine for life, mine for life, mine for life

We was together like
The whole thing that we was about
Everthing that we was about started to kind of change
I used to listen to it like
We was together

Mine for life, never be another, mine for life, never be anothe  ${\tt r}$  Mine for life, never be another, mine for life, never be anothe  ${\tt r}$ 

We was together like
You know we was younger then also
Early twenties like that
You know after awhile it got kind of like
You can only
You can't
I remember the day
Forever

Mine for life, never be another, mine for life, never be anothe  ${\tt r}$  Mine for life, never be another, mine for life, never be anothe  ${\tt r}$ 

Never be another, never be another, never be another
