Next To Me

Jim-E Stack

Good times you gave me
Touch make me lazy
Don't slow down keep it on the go, go, oh
Cause you I'ma wait for it
Spend time and make more with me
Hope you're not the type to let it go oh
Baby don't mind at the way
I talk when you walk like that's not that my bad
Only one time in a life catch a find like that
All facts yeah yeah yeah

Rolling rolling when I'm breaking down
I don't want you here to help me out
I just want somebody sitting next to me
Next to me
Know I got some things to figure out
If you gotta leave then do it now
I just want somebody who connects with me

More than a repeat
Sore to the core when it's this deep
Lemme know baby act like you miss me
Make a sound
Oh whoa whoa
Going can you meet me

If it's cold when I hold
Then your feet can lead you out
Baby don't mind at the way
I talk when you walk like that's not that my bad
Only one time in a life catch a find like that
All facts yeah yeah yeah
You you you deserve a crown
I deserve a queen, so tell me now
Hold me up whenever I get down
I need you

Rolling rolling when I'm breaking down
I don't want you here to help me out
I just want somebody sitting next to me
Next to me
Know I got some things to figure out
If you gotta leave then do it now
I just want somebody who connects with me

Rolling rolling when I'm breaking down
I don't want you here to help me out
I just want somebody sitting next to me
Next to me, baby
Know I got some things to figure out
If you gotta leave then do it now
I just want somebody who connects with me
