

A New Life

Jim James

Hey, open the door
I want a new life
Hey, and here's what's more
I want a new life, a new life

Babe, let's get one thing clear
There's much more stardust when you're near
I think I'm really being sincere
I want a new life, a new life
With you

Hey, open the door
I want a new life
Hey, and here's what's more
I want a new life, a new life

Babe, let's get one thing clear
There's much more stardust when you're near
I think I'm really being sincere
I want a new life, a new life
With you

Can't you see a perfect picture
You and me
But you know, it won't come easy
And what's more
It's worth looking for

Babe, open the door
And start your new life
Oh, your new life
Babe, on to the shore
And start your new life
Your new life, once more
