

Dear One

Jim James

Dear one, you always push the boundaries of my soul
With life and love we finally gained control
Now all life unfolds for us only
Dear one

Daily, every minute your possession of my mind
Ticking synchronicity of time
Your life synced to mine, on a dime
Dear one

Dear one
Moving through the ages till today
Two souls alike to meet again this way
In this day in age, blessed to know you
Dear one

Truly it's taken on a new meaning to me
And life and love no written guarantee
If you like what you see, come and get it
Dear one

Cause you know
For this mission we were chosen you and me
One egg that split in two we came to be
The dawn of humanity
We were there
Dear one
Once lost and lonely
Dear one
