

No Use Waiting

Jim James

Waiting around and the morning, has it begun?
Waiting around in the evening, for it to be done
No use waiting and wondering why
Better get together while we still got time

All's well that I can't have
All's well and in the past
Waiting for the future to come
In the shade but craving the sun

Waiting around in the morning, for you to be gone
Waiting around in the evening, for you to come home
No, no use waiting or wondering why
Better get together while we still got time

All's well that I can't have
All's well and in the past
Waiting for the future to come
In the shade but craving the sun, hey

Waiting around and the morning, has it begun?
Waiting around in the evening, for it to be done
No use waiting and wondering why

Better get together while we still got time
Better get together while we still got time
Better get together while we still got time
Better get together while we still got time
