

# The People

Jim Jones

As I look at CNN, it says, "Breaking news - Protests erupt across America, following the death of, George Floyd. R.I.P George. You more than a legend, you're icon, you're immortal, we got you.

Kaep took a knee but I think it's time we take a stand  
That crooked cop put his knee on the neck of a sacred man  
We still searchin' for equal rights inside this racist land  
That all started when Columbus docked here to take the land  
With the spirits of the Haitians, we take the power or the land back

This .40 got so much power, man, I think you should stand back  
Every time we dig our way out, we sink in like a sand trap  
We need more than reparations, man, why can't you understand that? (Do you hear me now?)

We spell "America" with three K's (KKK)

We'll show you mass hysteria like loadin' up three K's (Uh-uh)  
They been burnin' precincts down on CNN for the past three days  
That's for every time we see that murder on media replays (We got you, George)

The President tweeted and said, "When the looting starts" (Fuck 'em)

His exact quotes was, "That's when the shooting starts" (We ready)

Well, tell that motherfucker we already started lootin' (Facts)  
Shit get any worse, we gon' be ready to start shootin'  
Pray to the soul of Malcom or Martin (Uh-huh)

Martin Jr would be happy to see all the troops that was marchin'  
' (Fists in the air)

Look on TV, it feels like the revolution is starting  
On the same day they let the rockets shoot to the martians (Blast off)

I seen a Somalian girl with a handful of tear gas (Assalamu alaykum)

2020, not even half of the year passed (Facts)

We been fightin' COVID and everybody gotta wear masks

Let's all bow our heads 'cause we need some more prayers at mass (Amen)

(La musica de Harry Fraud)

I can't breathe, y'all

I feel-. I feel like I can't breathe though

Get, get off my neck, I can't breathe though

Mama, I can't breathe though
