

There's A New Moon Over My Shoulder

Jim Reeves

There is a new moon over my shoulder
And an old love still in my heart
I remember now that I'm older
What you told me the day we had to part

You promised with the new moon
You'd be coming back to me
Many moons have passed
Still I'm waiting patiently

There is a new moon over my shoulder
And an old love still in my heart

There is a new moon over my shoulder
And an old love still in my heart
Now I'm wishing I had been bolder
Then perhaps we wouldn't been so far apart

You promised you would write me
But so far not a line
Still I wait, and make believe
That someday you'll be mine

There is a new moon over my shoulder
And an old love still in my heart...
