

Sandman

Jim Sullivan

Here I am at your
Back post door
If kindly you'll let me in
As for me
I'm hanging around
Honey now your sandman's back in town

How long since you
Slept my dear
Have you waited all this time?
Did you know?
I wouldn't let you down
Honey now your sandman's back in town

I'm here honey
Close your eyes
Reach your arms out to me

I have made it
After a long ride
Honey your sandman's back in town

No more hiding from my memories
I'm here honey
Dry your eyes
It's a pleasure
Just being around
Honey now your sandman's back in town
