

# Infinite Mind

Jim White

Let us sleep in ...  
Let us roll among the weeds  
Let us wear our ragged hearts  
Upon our tattered sleeves  
Let us stroll among the strangers  
Contemplate their happy fates  
But ...locate little ...

And now if I stayed  
It's fun to cut the ... collide my...your pedestal  
sometimes, still gotta keep on trying to fly  
In the infinite mind, infinite mind

Well I I've ... lemons, it's time to make the lemonade  
Let's disconnect our main antennas, just enjoy the masquerade  
Whoa, how the world would tremble, as we servants become kings  
So no more dangling puppets, now it's us who pull the strings  
You gotta cross the desert of ... to enter...  
But his name back here... man you gotta hit the old punchline

With your infinite mind, your infinite mind

Now at the bottom of life's ... truth at the line  
You know some folks get kinda crazy as they let that old bucket  
fly  
But you and me, we'll be fine, ... our time cross our path  
We use our infinite minds to just kill the troubles

Cause if this ... candy and nuts, well we're all gonna have a merry Christmas  
and not dismiss it  
Infinite mind, yeah, infinite mind  
I'm talking about your infinite mind, if I'm lying, I'm flying  
Time has come to lie, on your infinite mind  
Yeah don't know about your, right now  
I'm switching my infinite mind.
