

Better Now

Jimmie Allen

I know I use to be the one
That always broke your heart
Left you in a million pieces
Burned every bit of us down to the ground
But I hope you're better now

I know I was the one
That wrecked your faith in fairytales
Took every bit of you for granted
And turned your hope into doubt
But I hope you're better now

I filled your world up
With heartache from my love
But I hope you're heart heals

Who I was isn't who I've been
I see the light is so much better than
The shadows I been living in
Life's been opening my eyes and
There's still a lot I gotta figure out
I just hope you're better now
I just hope you're better now

I learned a lot from my mistakes
And what you went through
You're the girl that I made love to
And it killed me watching your tears rolling down
But I hope you're better now

I filled your world up
With heartache from my love
But I hope you're heart heals

Who I was isn't who I've been
I see the light is so much better than
The shadows I been living in
Life's been opening my eyes and
There's still a lot I gotta figure out
I just hope you're better now
I just hope you're better now

Who I was isn't who I've been
I see the light is so much better than
The shadows I been living in
Life's been opening my eyes and
There's still a lot I gotta figure out
I just hope you're better now
I just hope you're better now

I just hope you're better now
