

Made For These

Jimmie Allen

Timing isn't always right, yeah
No matter how bad you want it to be
Your faith is shaken, testing all your patience
When you hit the bottom don't forget to breathe

Now all of those times
You get up for the letdown
Remember to tell yourself
Forever isn't right now

When you lose it all
Shattered by the fall
When every road you take feels like the long way
Let it make you stronger
And fight a little harder
When you get to where you're goin' then you'll see
Those days were made for these

Time is gonna get it right, yeah
You'll never see it coming like the wind
Dreams have, a funny way of coming true, yeah
When your hope is running out and wearing thin

All of those times
You get up for the letdown
Remember to tell yourself
Forever isn't right now, no

When you lose it all
Shattered by the fall
When every road you take feels like the long way
Let it make you stronger
And fight a little harder
When you get to where you're goin' then you'll see
Those days were made for these

Your back's against the ropes
But still you fight for a way to win
You push, you pull, you scratch, you crawl
To get a mile out of an inch

When you're shattered by the fall
When every road you take feels like the long way
Let it make you stronger
And fight a little harder
When you get to where you're goin' then you'll see
Those days were made for these
Oh yeah, those days were made for these
Da-da, da-da, da da yeah
