

Headed For A Fall

Jimmie Dale Gilmore

You may be peeking in your mailbox
You may be waiting for a call
There might be only stars to see
If you're not waiting there for me
I believe you're headed for a fall

You may be staring in your mirror
Crying while you put your makeup on
Where you gonna go tonight
To find the thing that makes it right
What will you do when you find it's gone?

Don't put your dreams way up there in the clouds
I don't think that's what it's all about
You can't get much higher when you're so above it all
I'll be waiting here when you hit bottom
I believe you're headed for a fall

We'll have days together in the sunshine
Autumn's twilight, winter's darkness too
Darlin' I will hold you, my love will enfold you
'Cause you need me, babe, just like I need you

Don't put your dreams way up there in the clouds
I don't think that's what It's all about
You can't get much higher when you're so above it all
I'll be waiting here when you hit bottom
I believe you're headed for a fall
I believe you're headed for a fall
