

## Nose Face

### Jimmie's Chicken Shack

As far as I can see  
To the end of my nose  
One good clue for your being here would let me in  
What do you play for  
Down in a thousand million worlds of nothing  
What could ever be  
Down from the mountain and you feel you are a king  
Right on  
Right on  
Who is witness in this room  
Who is safe, who is safe  
Who is with us in this room  
Who is witness in this room

No, no, no, no, no, no, no

As much as I can see  
To the end of this pose  
One good clue for your being  
Would you let me in  
And what do you play for  
Down in a thousand million worlds of nothing  
What could ever be  
Down from the mountain and you feel you are king  
Right on, right on  
Who is with us in this room  
And who is witness in this room  
And who is witness in this room  
And who is witness in this room

People don't like to be told what to do  
People don't like to be told what to do  
People don't like to be told what to do  
People don't like to be told what to do  
Noseface, noseface, noseface, noseface  
Noseface, noseface, noseface, noseface
