

# Around In Circles

Jimmy Barnes

Round and round we went in circles  
'Til the sky it fell  
Crashing down like waves that pounded  
On a beach somewhere in hell

And the water rose and licked my feet  
And tried to comfort me  
And the only comfort that I found  
Was when the water drowned my tears

When I start to think this won't work out  
You know it breaks my heart  
If I could take the pain away  
We could go back to the start

Around in circles we keep walking  
Saying the same things always talking  
Put the blame on one another  
Around in circles somehow further  
From our hearts

So will you be here tomorrow  
I wonder while you sleep  
You're my happiness, my sorrow  
Never meant to make you weep

Each night I feel we suffer  
From this painful deja vu  
If I could look into the mirror  
I would take the blame off you

Around in circles we keep walking  
Saying the same things always talking  
Put the blame on one another  
Around in circles somehow further

From our hearts you lead I'll follow  
Yes the truth is hard to swallow  
The bitter taste that lasts a lifetime  
Around in circles  
Not the last time we'll go 'round

And all the times I was standing  
Watching the wheels go 'round  
Never looked at one another  
Around and round  
We go in circles

Each night I feel we suffer  
From this painful deja vu  
If I could look into the mirror  
I would take the blame off you

Around in circles we keep walking  
Saying the same things always talking  
Put the blame on one another  
Around in circles somehow further

From our hearts you lead I'll follow  
Yes the truth is hard to swallow  
The bitter taste that lasts a lifetime  
Around in circles  
Not the last time we'll go round  
We'll go round  
Circles, we'll go around
