

If Time Is On My Side

Jimmy Barnes

I've had it all in front of me
Time after time
But wood through the trees is hard to see
I burned them all down
You can have a million bucks
Or a stone on a desert plain
Without love
They're one and the very same, yeah

If time is on my side
I'll never let you go
I'll hold you in my arms
And make sure that you know
If time is on my side
I'll never let you go
I'll hold you in my arms
For evermore

I walked across that bridge of sighs
Every day I was so alone
I saw you on the other side
And felt something that I've never known
I've been dreaming of you oh so long
If I don't tell you now
I know that you'll be gone

If time is on my side
I'll never let you go
I'll hold you in my arms
And make sure that you know
If time is on my side
I'll never let you go
I'll hold you in my arms
For evermore

People come and go
Just like dust in wind they're blown
As long as I am standing here
I'll never let you go

If time is on my side
I'll never let you go
I'll hold you in my arms
And make sure that you know

If time is on my side
I'll never let you go
I'll hold you in my arms
And make sure that you know
If time is on my side
If time is on my side
I'll never let you go
I'll hold you in my arms
For evermore
