

Stargazer

Jimmy Barnes

She's a stargazer
Always looking at the sky
And she don't even look up to me
When she's on her back at night
She seems to cast her gaze behind me
Off my shoulder to the right
Yes, my baby is stargazing
And another star is burning bright tonight

You know she used to call me darling
Said she'd never let me down
But I think that she's been walking
On the other side of town

And she don't answer when I call her
She lets it ring right off the wall
Leave a message I might call you
But she don't call me back at all

She's a stargazer
Always looking at the sky
And she don't even look up to me
When she's on her back at night
She seems to cast her gaze behind me
Off my shoulder to the right
Yes, my baby is stargazing
And another star is burning bright tonight

You know she used to call me baby
That was oh so long ago
She said that she'd be there to save me
That's not the way that these things go

It's not my name upon a letter
That she wrote the other night
It said she hoped that he'd forget her
How was it wrong it felt so right

She's a stargazer
Always looking at the sky
(Always looking at the sky)
And she don't even look up to me
When she's on her back at night
She seems to cast her gaze behind me
Off my shoulder to the right
Oh yes, my baby is stargazing
And another star is burning bright tonight
Oh yes my baby is stargazing
And another star is burning bright tonight

She's a stargazer baby
(Stargazing)
Yes my baby is stargazing
My baby my baby my baby
And she's burning bright, she's burning bright
She's burning bright tonight, oh tonight
