

## Sweat It Out

Jimmy Barnes

Heat goes up and rain won't fall  
We've run so far it's time to crawl  
And we all forget each lesson learned  
We played with fire and now we'll all get burned  
Gonna have to sweat it out

Can't ignore it or pass the blame  
While lovers walk in acid rain  
Feed the world was just a song  
They want to bleed the world and build a bomb

Gonna have to sweat it out  
But how long will it take  
Til the message gets through to you  
A change is due, starting here with me and you

Gonna have to sweat it out  
Gonna have to work it out

And politicians, thieves and banks  
Together help us all walk the plank  
They offered us the very best  
Until our souls are repossessed

If we're so sharp, how come we're falling apart  
We've been the fools  
We've kept on bending the rules  
Our rise and fall has taken no time at all  
For what it's worth the meek inherit the earth  
What's left behind just makes them angry and blind  
Too late to try, just kiss the whole world goodbye
