

# That's What You Do For Love

Jimmy Barnes

She greets the new day rising  
From the bottom of a broken heart  
She meets the early morning  
So tired that she can barely start

But she's got children there who need her  
And she won't ever walk away  
She'll give them something to believe in  
And they won't ever feel ashamed

Opening up every piece of your soul  
There ain't no mile you won't walk in the cold  
You're a fighter  
When you love somebody  
Give your last breath, lay it all on the line  
Sleepless nights, and the tears that you cry  
When you're hurting  
And you know it's worth it  
And that's what you do for love  
That's what you do for love  
That's what you do for love  
That's what you do for love  
That's what you do for love

He's been wondering lately  
Where did all the good times go  
Hard days, long nights, he won't stop  
'Cause he's got mouths to feed at home

He was born with faith and fire  
He got courage in his veins  
Pain will only take him higher  
He'll lay his life down now again and again and again and again

Opening up every piece of your soul  
There ain't no mile you won't walk in the cold  
You're a fighter  
When you love somebody  
Give your last breath, lay it all on the line  
Sleepless nights, and the tears that you cry  
When you're hurting  
'Cause you know it's worth it  
That's what you do for love  
That's what you do for love  
That's what you do for love  
That's what you do for love  
That's what you do for love

Opening up every piece of your soul  
There ain't no mile you won't walk in the cold  
You're a fighter  
When you love somebody  
Give your last breath, lay it all on the line  
Sleepless nights, and the tears that you cry  
When you're hurting  
'Cause you know it's worth it  
That's what you do for love

That's what you do for love  
That's what you do for love  
That's what you do for love  
Yeah that's what you do for love  
That's what you do for love  
That's what you do for love  
That's what you do for love  
That's what you do for love  
That's what you do for love  
That's what you do for love
