

# The Perfect Partner

Jimmy Buffett

Look over here, there's a girl, I've never seen her before  
Her eyes are lookin' straight at you across the crowded dance floor

Ooh, she's smilin', what a beautiful sight  
Oh, I got a funny feelin' she's gonna dance with you tonight

She could be the perfect partner  
She can take it in her stride  
She won't try to lead or follow  
Perfect partner by your side

Ooh, you got to take a chance, you got to let somebody move you  
It can happen at a dance, if there's a rhythm you can groove to  
Ooh, here she comes, y'all, she's comin' straight to me  
She's gonna ask me if I want to dance, I just have to wait and see

She could be the perfect partner  
She can take it in her stride  
She won't have to lead or follow  
Perfect partner by my side

The worst thing that can happen  
Is she steps on your toes  
But 'til you take that first step with her  
How will you know, know, know?

That she could be the perfect partner  
She can take it in her stride  
She won't have to lead or follow  
Perfect partner by my side

She could be the perfect partner  
She can take it in her stride  
She won't have to lead or follow  
Perfect partner by my side
