

A Part Of Me

Jimmy Clanton

I've been restless every night
Since that night you held me tight
Please return, oh, how I yearn
To hold you just once more

Please believe me when I say
That I need you every day
My heart is lonely, I need you only
To fill this love of mine

Oh, Lord, won't you hear my plea
Touch her heart, make it long for me
Show her the way to my front door
And happiness will be ours forevermore

Must I wait impatiently
What will be, I know will be
I see her face, feel her embrace
She's now a part of me

Oh, Lord, won't you hear my plea
Touch her heart, make it long for me
Show her the way to my front door
And happiness will be ours forevermore

Must I wait impatiently
What will be, I know will be
I see her face, feel her embrace
She's now a part of me
