

Stepping Out Of Limbo

Jimmy Cliff

Stepping out of limbo, stepping alive
Stepping out of limbo, stepping to life
Stepping out of limbo, stepping alive
Stepping out of limbo, we know where we've been
Stepping out of limbo, we've been sitting for too long
Stepping out of limbo, and we're singing a new song

We gonna keep on putting up resistance
And we know that our faith will lead us on
Strong and revolutionary and we will not be contrary
Strong and revolutionary and we will not be contrary

We gonna keep on putting up resistance
And we know that our faith will lead us on
And we know where we are going
Cause we know where we have been
We are going to our father's home
We know what we have seen
We've got love, we've got friendship
We've got life, we've got all
That's all we know that we will go

Stepping out of limbo, took the time and searched the
soul
Stepping out of limbo, now we've got that self-control
We gonna keep on putting up resistance
And we know that our faith will lead us on

Stepping out of limbo, and we'll see the light to glow
Stepping out of limbo, to where crystal waters flow
And we've got on putting up resistance
And we'll see that is faith that lead us on
Stepping out of limbo
