

# You Know That I Want You

Jimmy Cozier

Come on  
Yeah, yeah, yeah

Guess I'm getting older  
'Cause all I want is love  
I'm tired of fooling around  
Wanna find somebody  
Who can show me what's up  
Together we can feel it now

You know that I want ya  
I'm just being real  
My heart's on the line  
I'm looking for love  
You know that I need ya  
I know what I feel  
Let's get it together  
I've made up my mind

It takes time but I feel  
That we could be a special thing  
Just gotta give me love and bring  
Something to the table  
And please keep it real  
So that we can be  
Something eternal  
I know you see what I see

You know that I want ya  
I'm just being real  
My heart's on the line  
I'm looking for love  
You know that I need ya  
I know what I feel  
Let's get it together  
I've made up my mind

If you wanna be with me  
'Cause I'm sure  
That one day we can just be  
So good together  
We can find our love  
Give it a try  
Girl, we're all we need  
Yeah, oh yeah

You know that I want ya  
I'm just being real  
My heart's on the line  
I'm looking for love  
You know that I need ya  
I know what I feel  
Let's get it together  
I've made up my mind

You know that I want ya  
I'm just being real

My heart's on the line  
I'm looking for love  
You know that I need ya  
I know what I feel  
Let's get it together  
I've made up my mind

You know that I want ya  
I'm just being real  
My heart's on the line  
I'm looking for love  
You know that I need ya  
I know what I feel  
Let's get it together  
I've made up my mind
